HEALTH & SAFETY POLICY

Planet Environmental Ltd is committed as a responsible employer, to progressively and systematically improve the Health and Safety culture and will control its resources, co-operate with and expect co-operation from its suppliers and effectively communicate with all applicable person to achieve its objectives and improve them.

The company will provide all Health and Safety information to employees and suppliers to prevent injury, ill health, damage and loss arising from its operations.

In developing this commitment to Health and Safety the company's primary objectives are:

- Ensure all persons implementing this Health and Safety Policy are committed and trained.
- Promote Risk Assessment principles at all levels and implement appropriate management controls to reduce risk to standards in excess of legal requirements.
- Maintain the quality of the environment by careful consideration of the activities carried out.
- All employees and suppliers will conduct themselves in a manner that will safeguard their health and safety, that of others and protect their environment.

The company therefore, firmly believes in and promotes a Health and Safety Policy programme that fully complies with all associated current legislation and will achieve an ever increasing standard of excellence in this maturing business sector.
